SAVE PRINCESS VLEI PETITION

We, the undersigned citizens of Cape Town declare ourselves in support of the People's Development Plan for Princess Vlei and object most strongly to the rezoning of the banks of Princess Vlei to allow the building of a double volume shopping mall with close on 600 parking bays. We hereby petition all authorities that have power of decision-making about this valuable, eco- sensitive and culturally significant public open space to reject the proposed shopping mall development and review the extension of zoning decision made by MEC Bredell of the Western Cape Provincial Government. We draw attention to the Cultural heritage aspect in terms of the UN Convention on Intangible Heritage, which compels States to respect the heritage of indigenous people, and in this respect we refer to the traditions of the First Nation people, The Khoi and The San and the connectivity of the descendants of the Khoisan people to the Vlei. The banks of the vlei also host some very rare Cape Flats Sand Fynbos, which we feel compelled to protect. We hereby object to the sale of the land and support the PEOPLE'S PLAN FOR PRINCESS VLEI.
