RE: Maintenance By Paarman Landscapes:

This is to confirm that Paarman Landscapes has been doing our maintenance for the past three years (2006-2008). Their service and attention to detail is exemplary.

An Indigenous garden was proposed as it would help in keeping maintenance and water expenses to a minimum. In an Industrial area like ours this Landscape Design has served our needs well. We have the best looking verge in Dawn Road. Litter was our biggest problem, Paarman Landscapes work hard in cleaning up the litter, morning and afternoon.

Yours Sincerely

Grant Pistor
Chairman of the Body Corporate
(082 326 1245)
