**RE: Letter of reference for Paarman Landscapes**

To whom it may concern,

In my time as Property manager at Knights Bridge, Century City, Paarman Landscapes took over the Maintenance contract looking after our Landscape gardens. There was a noticeable improvement within the first 6 months.

Clayton also went out of his way assisting with areas next to the site by engaging with Century City Managers.

From July 2013 -June 2014, contract was resigned for the period July 2014-June 2015, again for

July 2015 – June 2016 I then handed over to Daphne Bolton who took over from me.

I believe Paarman landscapes has again been appointed for the period July 2016 -June 2017.

Paarman Landscapes under took the following.

Seasonal Feeding, Lawn mowing, Herbicide and Pesticide application when needed.

Weed control in paved areas. Tree pruning, Palm tree pruning. Irrigation maintenance and repairs.

They even went as far as building an Irrigation As Built plan, installed water saving devises (rain Sensors) on our 2 controllers.

Paarman had 2 permanent staff on site Monday to Friday.

I was happy with the delivery of service from Clayton Laue owner of Paarman Landscapes and staff. He has a unique relationship with his workers and that in my opinion is why he is so successful.

I am planning to review our current contractor and then provide Clayton the opportunity to tender as I would like to work with him again.

My current contact details are the following.
