

Frenemy

© croc E moses 2004

we've got to realize every minute of every hour  
we're either best of friends best of enemies  
hopefully every body best of frenemies  
at least we're equal when we sleep  
rest assured we are equal when we sleep

so people this is about seeing yourself being seen  
let's get back to basic eye contact...see yourself being seen  
like soul in the soldier...soldiers please drop your shoulders

please please don't police the peace

make space...make space make space make space  
calling all frenemies of the state...know that we are raping  
raping the mystery when we should be rapping  
rapping about the love mastery  
one fine masterpiece no more disaster please  
got to...frenemies  
we've got to  
we've got to deserialise our seriousness  
we've got to derealise our deleriousness I think so  
by now I should know so

for good's sakes let go let god  
forgive your enemy forgive your friend  
family frenemy again and again  
so let's start removing our armor  
everybody see the new knights in shining drama  
everybody unite in shining drama

one fine masterpiece  
no more disaster please

got to...frenemies  
we've got to shine  
everybody just shine  
like Madiba said  
who are you not to shine
