

Your wedding day is one of the most incredible days in your life. It would have required hours of planning, many financial sacrifices but at the end of the day it is all about having the most spectacular experience with the one you love at the very start of your journey. To this end we offer the comprehensive service we do with the added benefit of a relaxed atmosphere so that you can just have the most special day possible.

All our suppliers are well researched and reputable. The choice of books we have chosen to use are not only based on their aesthetic look but are an equally quality product. We work with two different companies, one that offers the hard cover soft page option, their German ultra lustre photo paper works perfectly to enhance the colour and quality of our images. The other company produces the flush mounted and treated hard page albums that have proven not to crack as many other flush mounted albums do.

All our Photo Books are designed by us to maintain a unique and quality album for each couple. We have for a long time now steered away from drag and drop softwares which can make for a very generic look.

Thank you for choosing Adrian Shields Photography!
